

PAINTER CALLED CHIEF JUDGE OF CONDITIONS

President of Association Points Out Fitness to Lead in Campaign for City Clean-Up.

W. F. Andrews, president of the Master House Painters and Decorators Association of Washington, in a statement last night, called attention to the logical position of the master painter in a clean-up—paint-up campaign, and urged that no other class of men is better fitted to learn and understand the clean-up—paint-up needs of the community than the master painters. Mr. Andrews said:

"The members of the Master House Painters and Decorators Association have been asked many times why they should take so much interest in the clean-up—paint-up campaign. The reason for this is quite apparent. The master painters, like all other good citizens, have civic pride enough to see what is good for the community, and to offer such suggestions and remedies as will place it in a good, sound, healthy condition.

In Close Touch With Home.

"Certainly, the master painter is in a better position, from the very nature of his business, to get a line on the sanitary conditions of the house, home and community generally than any one engaged in any other craft. His business brings him in close touch with the home, the office and the workshop; he will see what others will not have an opportunity to see, whether all is as sanitary as it should be, he will notice the accumulation of ashes, trash, etc., where they ought not to be. He will also find out when the householder will want new wall paper, and will want it on top of the present paper, regardless of the terms that are probably already there, and he knows this ought not to be permitted; in many states it is actually forbidden by law.

Sees Wrong Methods.

"He will often also see the sick room just vacated, possibly by one with even some infectious disease, and that no special care is taken to put it in a sanitary condition. The master painter knows this is wrong and that the room should be cleaned, repainted and repaired for the next occupant, that there may be no further spread of disease.

"In a hundred ways the master painter sees conditions as no others see them. It is therefore quite evident why the master painter is particularly concerned in this city-wide movement which is about to be launched.

"It is not only the commercial end which the master painter has in view, but as a good citizen he sees the real value to the community of so commendable an undertaking. After a little consideration it will be seen that the master painter is the logical man to be the guiding spirit in this warfare for cleanliness and freshness, and it behooves all good citizens to help spread this propaganda of clean up and paint-up for their own individual good and for the civic betterment."

READY TO KILL MORGAN

Charge Placed Against Man Implicated in Plan to Blow Up Munitions Plants.

NEW YORK, April 22.—Harry L. Newton, a former munitions worker who was arrested here Thursday after entering into an alleged agreement to blow up a munitions plant, was prepared to kill J. P. Morgan, according to an affidavit submitted today in the Tombs police court. On the strength of this document Newton was held for examination next Tuesday.

In the affidavit, made by Lieut. Detective Barnitz and corroborated by Felix W. Galley, a 5th avenue contractor, it is sworn that Newton promised to kill Mr. Morgan, if he would pay for it, by running a automobile into the bank of the banker's car. If this scheme failed, Newton promised, according to the affidavit, to carry a bomb into Mr. Morgan's office and leave it there, Newton declaring, Barnitz swore, that he could accomplish this by displaying a button inscribed "In his majesty's service," which he used while working in a Canadian munitions factory.

Bail Fixed at \$5,000.

Newton was held in the court today on a charge of violating a section of the penal code dealing with "an attempt to commit a crime." Bail was fixed at \$5,000.

Newton was arrested after he was alleged to have agreed with detectives to destroy munitions plants in Danbury, N. Y., and Canada. He was arrested yesterday and charged with planning explosives from Canada. He operated of this accusation by the court, he was next held on a complaint that he had a bomb in his possession in this city, for which he was held until the new charge was entered against him today.

Newton is described as an expert mechanic and a native-born American.

CHINESE EMBASSY HERE TOLD OF PEKING CHANGE

Governors Co-Operate in Reorganization of the Government.

The Chinese legation in this city today announced the receipt of the following dispatch from Peking, China:

"The military governor of Kiangsu, Gen. Feng Kuo-Chang, commander of the best organized troops and one of the most influential leaders in China today, aided by the civil and military governors of the seventeen provinces, has come forward to arrange on behalf of the central government with the leaders of the five other provinces which have either declared independence or remained neutral in regard to the plans of reorganization to be carried out.

"The report that Nanjing, which is the headquarters of Gen. Kuo-Chang, has declared its neutrality is a pure rumor. President Yuan issued a mandate yesterday authorizing the secretary of state to organize a cabinet government in Peking under the new system of government the heads of the various ministries will assume joint responsibility for the conduct of national affairs."

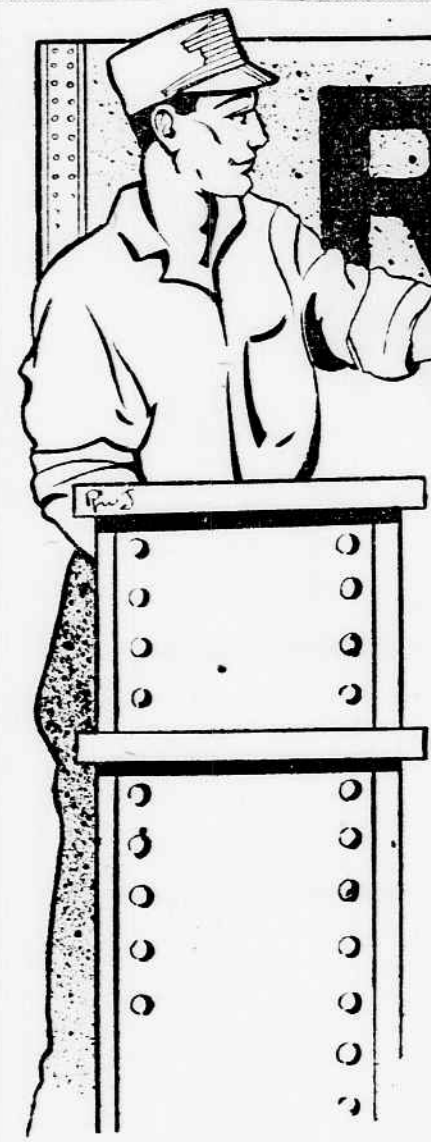

Sails to Command Rebels.

SAN FRANCISCO, Cal. April 22.—Gen. Huang Hung, a high officer in the Chinese revolution, sailed from here today to take command of the present revolution in China against Yuan Shi Kai.

It matters little that it is that you want whether a situation or a servant—a want ad in The Star will reach the person who will fill your need.
